EDUCATION

Kauno Kolegija

Bachelor's Degree in Software Systems

Lithuania, Kaunas

Sep. 2022 — Feb. 2026

EXPERIENCE

Freelance Software Developer

Jan. 2026 — Apr. 2026

UAB Lutra / Document Management Application

Remote

- Built a desktop ledger application using **Tauri**, **Rust**, **Svelte (TypeScript)**, **Tailwind CSS**
- Used **SQLite**, **Diesel ORM** for local data management
- Implemented **CRUD functionality** for services/products, clients, and documents
- Developed a flexible system for generating **PDF invoices, receipts, and orders**
- Enabled both template-based and manual data entry for efficient document creation

Full-Stack Software Developer

Sep. 2025 — Nov. 2025

UAB Ainera

Kaunas, Lithuania

- Developed and maintained multiple client websites using **WordPress**, **PHP**, and **.NET**
- Customized website functionality, themes, and plugins to meet diverse client requirements
- Implemented backend logic and database interactions using **SQLite**

Full-Stack Software Developer

Oct. 2024 — Jan. 2025

MB Timitis

Kaunas, Lithuania

- Developed a full-stack IT service order management system using **React (TypeScript)** and **Spring Boot**
- Designed and exposed **RESTful APIs** supporting full **CRUD functionality**
- Modeled and optimized relational databases with **Spring Data JPA / Hibernate**
- Secured application endpoints with Spring Security (**JWT/session-based if applicable**)
- Implemented email notifications using **Spring Mail**
- Reduced boilerplate and improved code readability with **Lombok**
- Worked in an **Agile (Scrum)** team, managing code with **Git**

PROJECTS

Rhythmic | .NET, React, MySQL, TypeScript

Feb. 2025 — Oct. 2025

- Developed a full-stack web application for managing and organizing music playlists across multiple platforms using **React (TypeScript, Vite)** and **ASP.NET Core (.NET 9 Web API)**
- Built features for playlist creation, editing, synchronization, splitting, and cross-platform transfer between services
- Implemented **playlist versioning system** and **duplicate track detection** to improve data consistency and usability
- Designed RESTful backend architecture using **Entity Framework Core (code-first)** with **MySQL** database
- Created a responsive frontend SPA handling state management and API communication
- Delivered a production-ready system focused on scalability, modularity, and user workflow efficiency

TECHNICAL SKILLS

Languages: Java, CSharp, Rust, SQL, TypeScript, HTML/CSS

Frameworks: React, Svelte, Node.js, Tauri, Spring Boot

Developer Tools: Git, Docker, VS Code
